
Invitation

Dear Participants,

We are pleased to invite you to our upcoming first international workshop in our joint project GeoSen. This workshop will provide a great opportunity to proceed our project and gain valuable insights into the latest research progress in Germany and Poland.

Our team has carefully curated a range of activities, including presentations, discussions, an excursion and demonstrations of our research progress, that will allow participants to gain valuable insights into the project's latest findings. Through these activities, we aim to foster collaboration and knowledge-sharing between German and Polish researchers, and contribute to the advancement of our shared research interests.

We look forward to welcoming you to our university and sharing this exciting experience with you.

Best regards,

Prof. Dr.-Ing. Hans-Joachim Linke
